UNNATI

Organisation for Development Education

UNNATI Organisation for Development Education is a voluntary non-profit organisation registered under the Societies Registration Act (1860) in 1990. It is our aim to promote social inclusion and democratic governance so that the vulnerable sections of society are empowered to effectively and decisively participate in mainstream development and decision making processes.

It is an issue based, strategic educational support organisation, working in western India with people's collectives, NGOs, elected representatives in local governance and the government. Collaborative research, public education, advocacy, direct field level mobilisation and implementation with multiple stakeholders are the key instruments of our work. The interventions span from the grassroot level to policy level environment in ensuring basic rights of citizens. In this, inspiration is drawn from the struggles of the vulnerable and strength from our partners. Presently, all the activities are organised around the following programme centres:

1. Social Inclusion and Empowerment

2. Civic Leadership and Governance

3. Social Determinants of Disaster Risk Reduction

The learning derived from our field experiences are consolidated and disseminated in print and electronic forms for wider sharing through a Knowledge Resource Centre.

The aim of the Financial and Accounting Manual is to guide all the staff members in the operation of financial policies and procedures. This will ensure that there is uniformity in generating accounting data and preparing financial statements and compliance with internal control systems, policies and procedures.

The policies and procedures outlined in this manual are currently practiced. It is suggested that this should be periodically reviewed to ensure that this manual is up to date.
